

Answer Key Test - 1 (Class 6th)

Section - A (Science)

1. Fill in the blanks :

(5 × 1 = 5)

1. Microscope
2. reactive
3. foetus
4. pull
5. Cytoplasm

2. Answer the following questions:

(5 × 1 = 5)

1. There are five major groups of micro-organisms are Bacteria, Fungi, Protozoa, virus, Algae.
2. Aluminum is malleable and can be drawn into thin sheets hence Aluminum foils are used to wrap food items.
3. Reproduction is a vital phenomenon on this planet earth which is essential for existence and continuity of life and species on it, generation after generation.
4. The force due to hammering causes the change in the shape of the iron and iron can be moulded in the shape of the required tool.
5. Various cell organelles are present in the cytoplasm. It is a clear and colorless fluid that contains organelles like Mitochondria, Ribosomes, Golgi bodies.

Section - B (Mathematics)

1. Multiple choice questions

(6 × 1 = 6)

1. (b)
2. (b)
3. (b)
4. (c)
5. (c)

2. Fill in the blanks

(4 × 1 = 4)

1. Principal
2. of same sign
3. 54
4. 5
5. negative

3. Answer the following questions:

(5 of \times 2 = 10)

1. Rs.21218
2. Rs.130
3. 3375 cm³
4. 28, 15
5. A number which can be expressed as a product of three equal numbers is called cube number.

Section - C (English)

1. Write the similar in meaning to the following word:

(5 \times 1 = 5)

- (a) counsel
- (b) abject
- (c) cite
- (d) Symmetry
- (e) illicit

2. "A visit to a museum"

(5)

A visit to a museum is interesting as well as educative. We can understand a lot about the history and culture of a country, its industry, arts, fashions etc. by visiting a museum. Last Sunday, I along with some of my intimate friends, went to a museum at Delhi. We bought tickets and entered the museum. The big building was divided into a number of sections. On entering the building, we saw separate sections containing many idols of Hindu gods. They looked life-like and impressive. Then we found ourselves in a hall decorated with rare pictures and paintings. We then moved to the history section. We saw certain objects belonging to the various periods of history. We then went to a big room full of ancient weapons and armours, like heavy swords, lances and shields. We saw bows, arrows, guns, spears, statues, idols, manuscripts etc. In another section we saw Kashmiri shawls, Amritsari shawls, Amritsari carpets, Peshawari embroidered turbans and rugs and many other specimens from different parts of India. The art gallery impressed us the most. It had beautiful paintings of fruits, flowers and natural landscapes. We also saw beautiful ivory work, coins and jewellery kept in showcases in another section. Then we came to a section which displayed rare manuscripts. My eyes rested on a manuscript said to belong to the Gupta period of the Indian History. A gold coin coined during Vikramaditya's reign drew out attention. In this way a visit to a museum provided us with a rich feast of ideas. It left a deep imprint on my mind.

3. Arrange the words in the correct order to form meaningful sentences.

(5 \times 1 = 5)

1. Malala was not deterred by the threats issued on her as she was courageous by nature.
2. Mother advised Rohan to take his medication without fail.
